### CUBANS ARE DOING WELL

Fighting Better Than They Ever Did Before

MAY NOT STOP WHEN ARMISTICE IS DECLARED

Washington, Aug. 11—Special—In the early stages of the war with Spain the American commanders had great difficulty in prevailing upon the Cubans to do their share of the fighting. Now that the war is practically over the problem of how to make the Cubans quit fighting has arisen, and promises to be a serious one. Since their rebuff by Gen. Shafter, the native troops have been doing splendid work, and are driving the Spaniards before them at many points. Flushed with success they are fighting as they have never fought before. It is feared, however, that they will continue their raids upon Spanish garrisons after a peace has been declared, and thus give rise to complications that may be troublesome. How to get them under control is a puzzle that is creating much uneasiness.

### Cuba and Porto Rico.

Washington, Aug. 11—Special—There are no stipulations in the protocol sent to Madrid for signature as to the future of either Cuba or Porto Rico. The only condition relating to them is that Spain shall remove her troops from their territory. Their fate is left for the future to decide. It may be that Cuba will be granted independence under an American protectorate, but there are many who believe her ultimate fate will be annexation to the United States with local self government guaranteed. Porto Rico will doubtless be occupied and become a province of the United States with some form of limited local self government. There is only one thing certain about these islands, however, and that is that Spanish domination will cease the moment peace is declared.

### A Doubtful Report.

Boston, Aug. 11—Special—There is a report here that Blanco has declared the surrender of Havana and the island of Cuba.

New York, Aug. 11—Special—The stock ticker gives this Washington dispatch: The secretary of war has cabled instructions to Miles, Shafter and Merritt to take no further movement against the enemy. Miles is instructed to inform the Spanish commander in Porto Rico of these orders.

### Luque Wants to Surrender.

Washington, Aug. 11—Special—A report reaches here from Cuban sources that the Spanish general, Luque, located at Holguin with five thousand men, who has been much pressed by Garcia, has asked terms of surrender from the Cuban commander. His army is in a starving condition.

### The Spaniards Repulsed.

New York, Aug. 11—Special—A dispatch from San Juan says a force of 800 Spanish made an assault on the lighthouse there before daylight Tuesday in the hope of retaking it from the Americans, but were driven back with heavy loss, leaving one hundred dead on the field.

### Had a Hot Fight.

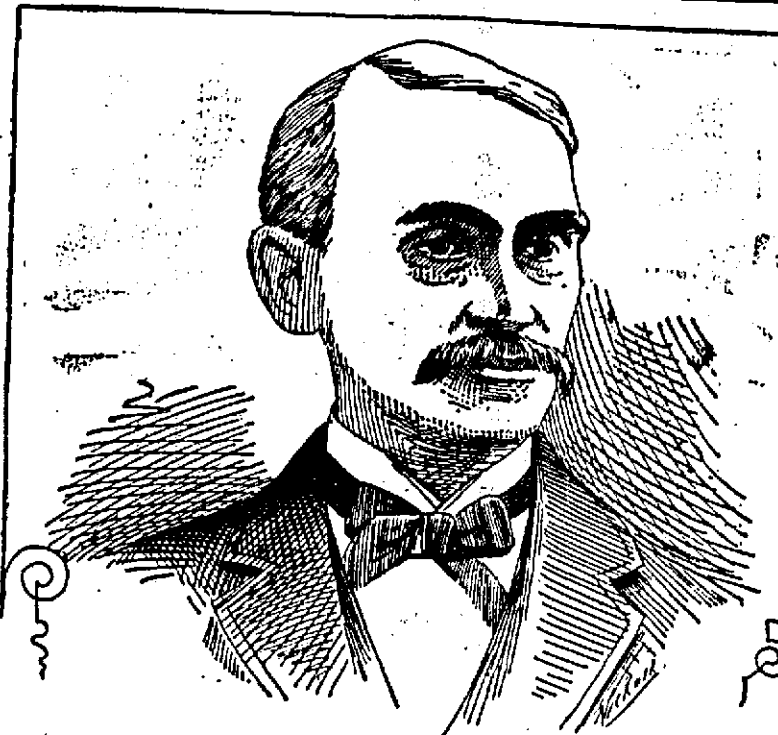

Ponce, Aug. 11—Special—General Schwan's forces had an engagement with 1,800 Spaniards near Horingueros yesterday. The Spaniards were driven back and the Americans pushed on toward Maguez. Our loss was two killed and fifteen wounded. The Spanish loss is not known.

### Progress in Porto Rico.

Washington, Aug. 11—Special—The signal corps of the army has constructed about 250 miles of land telegraph and telephone lines in Porto Rico, and more than half the island is equipped with means of prompt communication. The central telegraph office is at Ponce.

### BRIFFS FROM BELOIT SENATOR VEST IS. ILL

One of the Line City's Boys in the Army Invading Porto Rico—News from the Klondike.

Beloit, Wis., Aug. 11—[Special]—It was a surprise to Beloit people to learn that there is a Beloit boy with the American army at Porto Rico. The soldier is Roy Gaston, son of E. F. Gaston, of Gaston & Sons. Roy was once a clerk in Frank Van Wart's drugstore, and a few years ago went to Belvidere and from there to Rockford, where he joined one of the military companies of the Third regiment and went to the front. His regiment was sent to Porto Rico, and great honor has fallen on him, as he assisted in raising the first stars and stripes that floated over Ponce. His regiment, with the Fourth Ohio, fought the first real battle on our new island. The battle resulted in the capture of Guayama. Roy writes home that the scene at the surrender of Ponce was grand and in soldiers' eyes when the stars and stripes were raised.

They started from Seattle with two tons of provisions. They expect to meet Ben and Mrs. Oliver at Rampart City. George and Ben Oliver left here some time ago.

### PARTING TOKENS TO PASTOR

Father Roche the Recipient of Many Evidences of Love and Esteem.

At the chapel of St. Mary's church last evening there was a large assemblage of the friends and admirers of Father R. J. Roche desirous of bidding him farewell and Godspeed. Those present were members of the Young Ladies' Sodality, of St. Mary's church, members of the Catholic Order of Foresters and a number of Father Roche's personal friends.

Miss Anna Cox, on behalf of the Young Ladies' Sodality, presented Father Roche with a handsome gold watch and chain. She spoke of the work done by Father Roche in behalf of the societies of the church, and expressed the universal feeling of regret at his being called away. Father Roche responded feelingly.

The members of the Catholic Order of Foresters then presented Father Roche with a purse containing a handsome sum of money, after which the gentlemen friends of the pastor, who are not connected with the church, handed him, through Neil Mahoney, \$125 in gold coin.

During the leave-takings Father Roche's sister and housekeeper, Miss Maggie Roche, was not forgotten. Yesterday afternoon the Young Ladies' Sodality presented her with a rich bookcase as a testimonial of the esteem in which she is held by them. The gift is an appropriate one and is highly appreciated by the recipient.

## MIDNIGHT THE LIMIT

Spain Must Accept or Reject Conditions By That Hour

FIGHT TO BE RENEWED WITH VIGOR IN CASE OF REFUSAL

Washington, Aug. 11—Special—Spain has until midnight to sign the protocol, which is both a preliminary peace contract and an ultimatum. If signed, an armistice will be declared; if not, negotiations will stop, and the war will be vigorously prosecuted. Orders, however, are in preparation directing hostilities to cease as soon as the negotiations have reached a point where that is possible.

Washington, Aug. 11—Special—There is little doubt here of the acceptance by Spain of the protocol of peace that has been forwarded to Madrid. It was drawn up by Secretary Day in lieu of a refusal to accede to Spain's request for temporary sovereignty in Cuba and for the assumption by the United States of the Cuban debt. The protocol states unequivocally what the United States expects of Spain, and the note accompanying it intimates that these are the best terms that can be had, and that more will be exacted in case of a delay in their acceptance. An answer is demanded today, which will give the Madrid government till midnight to make up its mind. If a refusal is made all conditions heretofore given will be withdrawn and the war prosecuted with increased vigor.

## FINE ENDORSEMENT FOR H. A. COOPER

CONGRESSIONAL CONVENTION  
DOES WORK QUICKLY

Chicago Inter Ocean's Account Of the  
Proceedings at Elkhorn Yesterday  
—Speech Made By the Nominee In  
Accepting Was Particularly Force-  
ful—The Resolutions Passed.

The Chicago Inter Ocean has the  
following account of the proceedings  
at the Elkhorn convention:

Elkhorn, Wis., Aug. 10.—Congress-  
man Henry Allen Cooper was renomi-  
nated by acclamation at the conven-  
tion of the republicans of the First  
Congressional district of Wisconsin,  
held here this noon. The best of  
spirits prevailed among the 113 dele-  
gates, representing the counties of  
Racine, Kenosha, Walworth, Rock,  
Green and Lafayette, and, were it not  
for the inspiring speeches and the  
masterful extemporaneous outburst of  
the candidate, the whole would have  
looked more like a mere formality.  
Mr. Cooper's speech was especially  
strong when he spoke of the achieve-  
ments of the war and expressed the  
hope that the people of the United  
States would never consent to restoring  
the inhabitants of the Philippine  
islands to Spanish slavery. He adroitly  
explained the stand he took in  
congress on the declaration of war  
by quoting Burke, and won the hearts  
of his hearers by his easy and flowing  
language.

The convention was called to order  
at noon by Chairman W. W. Chad-  
wick, of the congressional committee.  
Johnston A. Jackson, of Kenosha, was  
chosen chairman and Chas. Ingersoll,  
of Beloit, secretary. The committee  
on credentials was made up of A. E.  
Eastman, of Lafayette county, O. E.  
Beemer, of Kenosha, D. J. Morey, of  
Racine, E. B. Merlin, of Green, D. W.  
Stanford, of Walworth, and E. T.  
Fish, of Rock county, while those ap-  
pointed to present resolutions were  
Wallace Ingalls, of Racine, A. E.  
Matheson, of Rock, John Reynolds, of  
Kenosha, John Luchinsinger, of Green,  
George E. Weatherbee, of Lafayette,  
and N. W. Littlejohn, of Walworth.

Resolutions of the Convention.

On reconvening, after a recess of one  
hour, the report of the committee on  
credentials was adopted and the senti-  
ments of the delegates were expressed  
in the following resolutions:

Resolved, By the republican party of the First  
congressional district of the state of Wisconsin,  
in convention assembled, that the administration  
of President McKinley, by the wisdom  
shown in conducting the affairs of the nation,  
by the care, solicitude, and ability displayed in  
carrying on the war for the liberation of Cuba  
from Spanish despotism, commends itself to all  
patriotic American citizens.

Resolved, That the administration of our es-  
teemed president has, in all respects, been such  
as to merit the confidence of the American peo-  
ple, regardless of party.

Resolved, That we appreciate to the fullest ex-  
tent the ability, industry, and statesmanship of  
Hon. Henry Allen Cooper for his able and effective  
work in the interest of the people of this  
district, as well as of the nation.

A. C. Dodge of Green county, then  
placed in nomination Congressman  
Cooper, in an eloquent address, extol-  
ling the qualities of the candidate, ex-  
pressing his confidence in him, and  
referring to his record as above auspi-  
cious, and describing the valuable ser-  
vices he rendered the country by his  
stand as a member of the committee  
that investigated the Union Pacific  
complications and forced the Union  
Pacific company to pay into the United  
States treasury \$57,000,000 in cash. He  
urged the delegates not to send a good  
man, who had learned the ins and  
outs at Washington and attained the  
confidence and respect of the leading  
members, into retirement, but to keep  
him in congress until it is found that  
he has not been faithful to his trust.

B. Northrop of Racine seconded the  
nomination in a few remarks, paying  
a glowing tribute to the personality  
of Mr. Cooper. O. E. Summer, of Wal-  
worth county, followed with a motion  
that the nomination of Mr. Cooper be  
by acclamation. This motion was re-  
ceived with enthusiastic acclaim. All  
the delegates arose, and in a few se-  
conds Mr. Cooper was the nominee.  
Messrs. Littlejohn, Summer and Dodge  
were appointed a committee of three  
to bring the nominee before the con-  
vention, and while they were absent  
the congressional committee for the  
First district was made up as follows:  
W. W. Chadwick, chairman; Frank G.  
Tieknor, Racine; O. C. Bennett, Lafay-  
ette; Johnston A. Jackson, Kenosha;  
Dewitt Stanford, Walworth; Chas. In-  
gersoll, Rock, and A. C. Dodge, Green.

Congressman Cooper's Speech.

Mr. Cooper was received with rous-  
ing cheers and spoke as follows:

Mr. Chairman, Gentlemen of the Convention:  
Your committee has notified me of the result of  
the vote you have just taken. I beg you to be-  
lieve that I am deeply grateful for your kind-  
ness. I deem it an honor—indeed it is a signal

honor—to be nominated by the republicans of  
any congressional district as their candidate  
for representative in congress; but it is an es-  
pecial honor, gentlemen, to be nominated by  
the republicans of the First district of Wiscon-  
sin, for, take that district from the cities of Ra-  
cine and Kenosha, with their great factories, on  
through Walworth, Rock, and Green counties,  
those scenes of agricultural wealth and beauty,  
and still further westward to the mines of La-  
fayette, not only is its material features, but as  
well in the character of its inhabitants as in  
the general diffusion of intelligence among them,  
the First district of Wisconsin is unsurpassed  
among the congressional districts of the  
United States.

I have said that so many times down in the  
lobby of the house that they are beginning to  
believe me. The only man that ever seemed to  
doubt I was a man from Boston, and I had him  
almost converted during the last session.

The whole treatment which I have received at  
the hands of the republicans of the First con-  
gressional district is such as to fill my bosom  
with gratitude, and I am under obligations to  
you which I can never repay.

A representative of the congress of the United  
States ought to be mindful of his duty, devoted  
to it, and mindful, also, of the responsibilities  
imposed, and of the manifold opportunities  
doing good which it presents; and he ought to  
be actuated solely by the purpose to serve the  
people faithfully and well. I may not be able to  
realize this ideal, but if I accept your nomi-  
nation, I pledge you that if your action  
shall be ratified by the republicans of this dis-  
trict at the polls next November, (A voice:  
"There is no doubt of that.") I shall in the fu-  
ture in the past, try to serve you honorably.  
North and South United.

We are in the midst of great events. For the  
second time in this generation the republic is  
at war. Thirty or more years ago a war came  
upon us because this republic could not exist  
half slave and half free. That a war which  
human power could avert, because it had its ori-  
gin in deadly antagonistic interpretations of  
the federal constitution, a war which came upon  
us as an earthquake, and as the volcanic fires  
blaze up from earth to heaven—a war the story  
of which will forever be told to vindicate the  
strength of American institutions and to show  
to the world that a government of the people, by  
the people, for the people, shall not perish from  
the earth. (Applause.)

And now, just at the end of the nineteenth  
century, just as its record was almost complete  
and it was about to pass into eternity, we are  
plunged again into war. McKinley says in one  
of his essays that the two elements of social vir-  
tue are regard for the rights of others and sym-  
pathy with their sufferings. Judged by that,  
there was never a holier war than this since  
1776, when we had a country truly united. Now  
one flag and the south are again united under  
one flag and striking in the sacred cause of hu-  
man liberty. There are great new, but will  
probably have an opportunity during the cam-  
paign—which will have to be met and solved by  
the American people as other great problems  
the welfare of which ought to be the object of  
our constant care, as the nation is worthy our  
deepest love.

The Hawaiian problem is now disposed of and  
Cuba and Porto Rico are practically disposed of,  
and when it comes to the Philippine question  
there is no doubt that the republican adminis-  
tration under that magnificent leader, William  
McKinley (great applause), and sustained as he  
is by the united votes of the great Ameri-  
can people, will demand but one thing and that  
is that the enslaved and outraged people shall  
never again be turned back to the infamous  
domination of the heartless monarchy of Spain.

And now, in conclusion, I wish again to ex-  
tend to you my most sincere and heartfelt  
thanks. You have been very kind to me, and  
can employ the sentiment, if not the language,  
of Burke, on a somewhat similar occasion, when  
he thought of your treatment of me. He said: "Un-  
less we allow our representatives to act upon a  
very enlarged view of things, we shall infallibly  
degrade our national representation into a mere  
bustling turmoil of local agency."

A man to represent you ought to be a man of  
stability. He is bound to consult your opinions  
and your views, but he has also to remember  
that what you desire is to be in five years hence,  
and under his deliberative conviction of right, un-  
der his oath to support the great American  
constitution, and the sentiment of Burke, and I  
can employ his sentiment I think: "You elect  
me your representative to take my place in the  
halls of congress as he said in the halls of  
parliament, to be a pillar of the state, and not a  
weathercock in the edifice, elevated because of  
his verbiage and exalted because of his  
edifying currents that blow about him."

The convention concluded its busi-  
ness shortly after 2 o'clock and the  
Racine and Kenosha delegates return  
home by a special train via Western  
Union Junction.

Cooper a Hard Worker

Henry Allen Cooper is a man of  
many peculiarities. He threw him-  
self with vigor into the discussion of  
the war with Spain before it began  
and took rank with those who deter-  
mined to free Cuba and bring Spain  
to an account. He is a fluent, for-  
cible talker. An ardent devotee of  
music, he is known to spend hours  
over the piano. In everything he  
undertakes he is enthusiastic and puts  
into the accomplishment of his plans  
all his powers. He is a hard worker,  
and has been honored with places on  
very important congressional  
committees. His position on the  
river and harbor committee has been a  
strong factor in stifling home opo-  
sition to his renomination in that he  
succeeded in securing a good harbor  
appropriation for the city of Racine.

Mr. Cooper was born in Walworth  
county, Wis. He graduated at the  
Northwestern university in 1873 and  
from the Union college of law in  
1875. He resided in Chicago from  
1875 to 1879, in which year he began  
practicing law in Burlington, Racine  
county. In 1884 he was elected with-  
out opposition. In 1884 he was elected  
delegate to the National republican  
convention, state senator in 1886 and  
a member of congress in 1892. He was  
re-elected in 1894 and 1896 and will  
begin his fourth term in the new  
congress.

The secretary of the treasury has  
compiled an interesting statement  
showing the revenue derived from im-  
ports of tea during the first month of  
the war revenue measure. The amount  
of tea imported at Milwaukee was  
\$3,810 pounds, valued at \$13,215. Of  
this amount \$8,140 pounds were with-  
drawn for consumption, and on the  
basis of 10 cents a pound as provided  
by the war measure netted a revenue  
of \$8,140. The remaining 18,070  
pounds, valued at \$2,208, was left in  
custom house, and consequently no  
duty was collected thereon. Ultimately,  
however, the government will collect  
\$1,367 on this tea in store.

J. HENRY CONRAD'S  
TRAGICAL DEATH

DETAILS OF THE ACCIDENT BY  
WHICH HE LOST HIS LIFE

No Blame Attached to Any Of the Em-  
ployes Of the House—His Business  
Career Was a Long and Honorable  
One—Funeral Arrangements Await  
The Widow's Return.

The Chicago papers contain details  
of the accident on Wednesday where-  
by J. Henry Conrad, formerly of this  
city, lost his life. As stated in 'The  
Gazette' last evening Mr. Conrad fell  
down the elevator shaft in his place  
of business. The distance Mr. Con-  
rad fell was forty-five feet, from the  
third floor to the cement floor of the  
basement. He struck on his head and  
shoulders, and lived but a few min-  
utes after the accident.

Mr. Conrad was going to the fourth  
floor of the building, having stepped  
on the elevator at the first land-  
ing. Henry Bryant, the engineer,  
was in charge. The elevator was  
used for carrying freight, and was go-  
ing up rather slowly. The car was  
just passing the third floor, when Mr.  
Conrad caught sight of his fore-  
man, Joseph Sebastian, standing near  
the elevator shaft. He called to Se-  
bastian that he wanted to see him, and  
started to jump from the car. It had  
reached about two feet above the  
floor.

As he jumped his head struck against  
the elevator gate on the third floor.  
This slides upward, and was raised  
just sufficient for a man to pass under  
it when the elevator platform was  
even with the floor. Mr. Conrad failed  
to take this into account. He was stag-  
gered by the force of the collision with  
the gate. The force of the recoil sent  
him back against the elevator plat-  
form. Before Engineer Bryant could  
bring the car to a stop it had gone so  
high that it failed to support Mr. Con-  
rad's body, and he slipped into the  
shaft and fell to the basement.

The engineer and foreman rushed  
to the basement to help their em-  
ployer, hoping that he had escaped  
instant death. He never breathed  
after they reached him. Both men  
said that he struck the elevator gate  
with great force, and that he was  
knocked insensible before he fell into  
the shaft.

The disaster caused a widespread  
expression of sympathy among Mr.  
Conrad's employes and business  
friends along the street. The regular  
routine of the store was at once sus-  
pended and the office closed. The  
large flag that Mr. Conrad had had  
floating from his building during the  
war was put at half mast.

Mr. Conrad's home was at No. 3840  
Lake avenue and his remains were  
taken there. Hundreds of friends  
called there to offer their condolence  
to his son, who is an only child. The  
deceased was one of the best known  
business men in the tea and coffee  
trade in Chicago, having been en-  
gaged in business of importing for  
the past thirty years. He was born in  
Rockford, Ill., in 1841 but removed  
with his parents to Janesville, Wis.,  
where he received his early  
education. At the age of  
10 he graduated from the University of  
Michigan in the class of '60. While  
there he joined the Phi Psi fraternity.  
For a number of years he engaged in  
the retail grocery business at Janes-  
ville. He came to Chicago in 1873  
and engaged in the importing trade.  
The firm of Bell, Conrad & Co. was  
then formed, which partnership con-  
tinued until last September, when the  
present name was adopted, Charles E.  
Conrad, his son, being a member of the  
partnership. Mr. Conrad was married to  
Miss Eugene Barker at Janesville  
in 1878. His wife survives him. Mrs.  
Conrad is visiting in Northern Michi-  
gan, but is expected back in Chicago,  
her husband's sudden death having  
been telegraphed to her at once.

Dr. J. I. Terry, of Trimble, Tenn.,  
in speaking of Chamberlain's Colic,  
Cholera and Diarrhoea Remedy, says:  
"It has almost become a necessity in  
this vicinity." This is the best remedy  
in the world for colic, cholera morbus,  
dysentery and diarrhoea, and is recog-  
nized as a necessity wherever its great  
worth and merit become known. No  
other remedy is so prompt or effectual,  
or so pleasant to take. Sold by Peo-

GERMAN CATHOLICS TO MEET

Milwaukee Convention Promises to Be a  
Large and Interesting One.

Janessville will, in all probability,  
be represented at the coming German  
Catholic convention to be held in Mil-  
waukee Aug. 21-24.

The speakers who are to deliver ad-  
dresses during the convention include  
many men well known in Catholic cir-  
cles. The most distinguished name on  
the list is that of Dr. E. M. Lieber, of  
Berlin, Germany, a member of the im-  
perial parliament and a speaker of  
wide reputation. He will deliver the  
closing address.

The convention, it is expected, will  
attract in the neighborhood of 50,000  
people to Milwaukee, Sunday, Aug. 21.  
They will be welcomed by Mayor Ross  
in behalf of the city and Joseph E.  
Horst in behalf of the local societies,  
the exercises being held at Maenner  
Verein hall, Eighth and State streets.

## HONORS FOR NAVAL HEROES.

Sampson and Schley to Be Rear Admirals.

WAINWRIGHT IS PROMOTED.

Commander of the Gloucester Has Now Been Twice Recommended for Higher Positions Since the War Commenced—Capt. Clark's Work.

Washington, Aug. 11.—The president has determined to recommend to congress that Acting Rear Admiral Sampson be advanced eight numbers and Commodore Schley six numbers. This will result in making each a rear admiral, but with Commodore Schley ranking immediately below Admiral Sampson.

Capt. Clark of the Oregon will be recommended for an advance of six numbers, and Lieutenant Commander Wainwright will go up eight numbers. Other promotions throughout the fleet will be recommended.

The promotion of Schley and Sampson adds two more to the roll of rear admirals who have won their advancement by gallant services in the present conflict. The list now includes Dewey, Schley and Sampson, all of whom have done heroic work for their country and have demonstrated the prowess of the United States as a naval power.

The promotion of Lieutenant Commander Wainwright marks him for special distinction, as he is the only naval officer who has been twice recommended for higher honors during the war, and none more richly deserve such recognition than this gallant officer, who first waged successful battle with two of the enemy's most dreaded war machines at the mouth of Santiago harbor, and a few days later gallantly sailed his little vessel into the port of Ponce and raised the stars and stripes for the first time as a conquering invader upon the soil of Porto Rico. This daring young commander, who comes of splendid fighting stock, has added new luster to his country's arms, and may be counted upon to fill a place in martial history beside the grandest heroes who have done service in army and navy.

Capt. Clark of the Oregon has nobly won the honors his country bestows upon its heroes. His unrivaled achievement in making the longest voyage ever made with a battleship, and then participating in one of the most memorable naval engagements in the world's history, doing incalculable damage to the enemy's fleet, proves his ability as a commander.

## VICTORY IS A GREAT ONE.

Spaniards in Manila Are Demoralized by Their Defeat.

In Front of Manila, Aug. 5, via Hongkong, Aug. 10.—The Spaniards are stunned and demoralized by the great victory of the Americans on the night of July 31. All advantage was so clearly on the side of the Spaniards that soldiers and residents of Manila, according to reports brought by refugees, expected nothing less than to drive the Americans into the sea. Their hopes had been buoyed up by the Spanish press of Manila, which had published lying reports of the woeful condition of the Americans and their weakness in numbers.

The Spanish loss was heavy, including several officers. The Spaniards' plan was to turn the Americans' right flank and make a joint attack on the front and right, with the intention of killing as many Americans as possible and demoralizing the entire force before its general advance on Manila. The Spanish forces fought doggedly to this end, but the steady fire of the American rifles and batteries was utterly unexpected and caused the Spaniards to withdraw into the forts and trenches at Malate. This information comes from a foreigner who was an eyewitness to the fighting and is entirely reliable.

## Big Camps to Break Up.

Washington, Aug. 11.—Adj.-Gen. Corbin has issued the following statement: "The secretary of war has ordered one division of the First army corps from Chattanooga to Knoxville, Tenn., and another division of the same corps from Chickamauga to Lexington, Ky. A division of the Fourth corps, now at Tampa, has been ordered to Huntsville, Ala. The Second division (Gen. Davis') of the Second army corps, now at Manassas, Va., has been ordered to Middletown, Pa. The advisability of marching the troops from Chickamauga to Knoxville and Lexington is under consideration."

## Says Carlists Are to Rise.

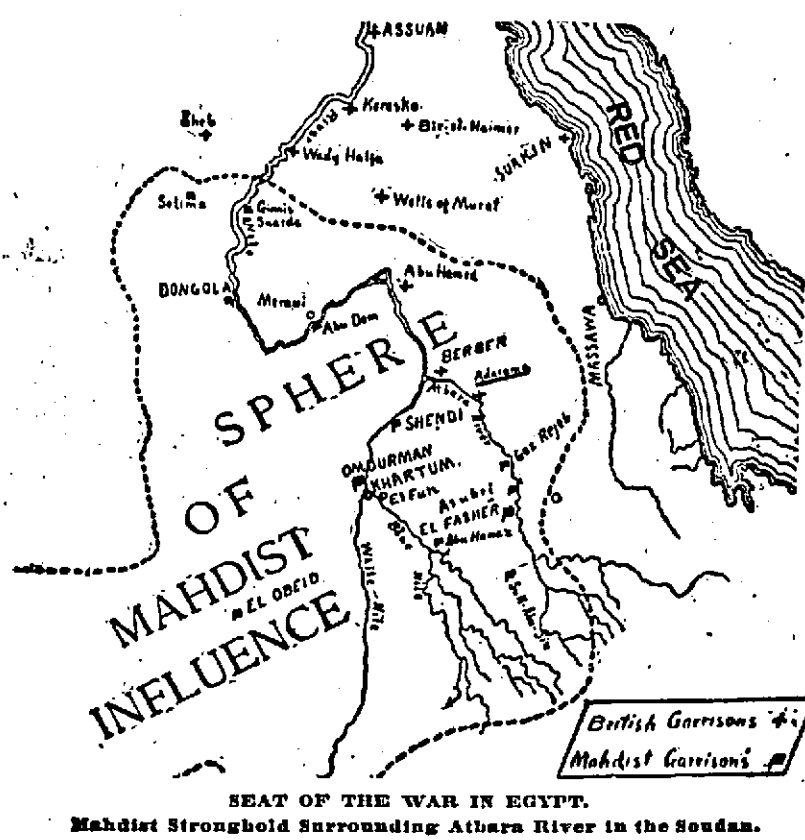

Brussels, Aug. 11.—An exceedingly doubtful story is published by the Sol of this city in a dispatch from Barcelona, which says that at a recent meeting of the Carlism leaders it was decided immediately to take action, and that orders were issued for the Carlism to assemble. It is further said to be reported that Don Carlos personally enters Spain on Monday or Tuesday next, and that in the meantime 180,000 rifles and quantities of ammunition have reached the Carlism.

## Will Surrender to Garcia.

Washington, Aug. 11.—News has reached Washington that Gen. Luque, the commander of the Spanish forces at Holguin, who has been penned up there by Gen. Calixto Garcia, has offered to surrender to Garcia if his soldiers are permitted to return to Havana.

## All the Men Will Recover.

Coamo, Porto Rico, Aug. 11, via Ponce.—All the men wounded in Tuesday's fighting will recover.

## Jewish Colony Is in Trouble.

San Francisco, Cal., Aug. 11.—The Occidental Colony company at Wellington, Lyon county, Nev., which was organized and operated by Russian Jews, is about to be closed out by the sheriff. The colony, started 1897, was doing well when President Daniel Schwartz and Secretary Harry Bell mortgaged the entire crop of the colony for \$1,500 and decamped. It is charged. The bank now seeks to recover.

Schwartz formerly lived in Philadelphia, while Bell hails from Chicago, and neither of these places is most likely their objective point, although some of the colonists believe the fugitives are on their way to Alaska. Warrants are out for their arrest.

## Pope May Be Seriously Sick.

Rome, Aug. 11.—Owing to the sudden fall in the temperature the pope has contracted an internal chill. On the advice of his physician, Dr. Lapponi, who recommends rest, his holiness has suspended all audiences. The Observatore Romano declares that there is no cause for anxiety, but rumors are current that the pope is suffering from extreme physical weakness, and that all business is practically left to Cardinal Rampolla, the papal secretary of state.

## Commission Goes to Hawaii.

San Francisco, Cal., Aug. 11.—The steamer Mariposa left last night for Hawaii. She carries the Hawaiian commissioners—Cullum, Morgan and Hitt—to Honolulu. Two hundred New York soldiers also are on board. The vessel is to reinforce the garrison there. On the arrival of the commission the American flag will be raised with due formality. Later laws and tariff regulations will be prescribed, to be in effect until the American congress can act.

## Gains Made by Scofield.

Milwaukee, Aug. 11.—The round-up of Wednesday's county court and district conventions gave Gov. Scofield sixty delegates, and Mr. La Follette ten. ## REPUBLICAN STATE CONVENTION.

Headquarters Republican State Central Committee, Milwaukee, June 15.  
To the Republican Electors of Wisconsin:  
By direction of the State Central committee, a convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at 12 o'clock noon, for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.  
The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention.  
In accordance with resolution recommended by the state convention and formally adopted by the State Central committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee county, the unit basis shall be the assembly district, and in such counties delegates shall be elected by assembly district convention, and the names of the delegates so elected shall be certified to the State Central committee by the chairman of the district thereof; in all other cases delegates shall be elected by county conventions.  
Under the present basis of representation the several assembly districts in the state are entitled to one delegate for every two hundred and (250) republican votes, or major part thereof, cast at the last preceding presidential election.  
Special attention is hereby called to the fact that all conventions to elect delegates to the state convention must be called on a notice of not less than four weeks; all town or ward caucuses as primaries to state convention on a notice of not less than ten days, and that notice of the meeting of such caucuses or caucuses shall be given in the usual manner.  
As the State Central committee acts as the Committee on Credentials, it is requested that credentials of delegates elected, duly certified to by chairman and secretary of county or assembly district convention, be forwarded to the secretary at Republican State Central Committee headquarters in Milwaukee, immediately upon their election; in every case giving the names in full and postoffice address.  
EDWIN D. COE, Chairman.  
JOHN M. EWING, Secretary.

## CONGRESSMAN COOPER'S SUCCESS.

No man ever received a finer tribute to his worth than was given to Congressman Henry Allen Cooper, of Racine, by the republicans of the First Congressional district in convention assembled at Elkhorn yesterday. There was not one word of protest, and no other candidate was even mentioned either in the convention or among the delegates as they visited with each other before the convention. Hon. A. C. Dodge, of Monroe, Green county, nominated Mr. Cooper; Kenosha and Racine county delegates seconded the nomination, and O. B. Sumner, of Walworth county, moved that the nomination be made by acclamation. With a cheer the motion was adopted, and Mr. Cooper got a hearty welcome as he entered the hall with the committee of notification. His speech of acceptance was enthusiastically received, and he was congratulated by every delegate present after the adjournment. It was an endorsement that any man could well be proud of, and that Mr. Cooper appreciated the fact was plainly shown by the feeling way in which he spoke in accepting the nomination.

## NEED MERCHANT MARINE.

The American Manufacturers agree that while a powerful navy is needed by the United States, a large merchant marine is equally necessary. Under the head "Training School for the Navy" The Manufacturers say: "We give employment to the finest ships afloat in the world today, because our trade is the most profitable, the most desirable, the most attractive; but in almost every case foreign ships monopolize this carrying trade. Of course it is held protection for the American merchant marine is what is needed to enable us to build and own the ships that our growing commerce employs, but there are indications that in the course of events we are moving in that direction. A large merchant marine is necessary in building up a great navy, as the commercial service is a training school in which men are fitted for service in the navy."

The first battle at Santiago was a repetition of the old, old story. The Spaniards were mowed down by companies while the American loss was light.

The fire at Bismarck shows that modern apparatus is necessary in every fire department, and that even then, the flames will often sweep on in spite of all that can be done. The fire de-

partment is not needed every day, but when it is needed it is needed most urgently.

"No," replied Mr. McBride, after a critical survey of the lamp shade and the room, "I am very sorry to say that it doesn't."—Town Topics.

Easy Cure for Dyspepsia.  
"As painful and annoying as dyspepsia is, it may be easily and quickly cured if the sufferer will only be careful in his daily diet," writes Mrs. S. T. Rorer in the Ladies' Home Journal. "Abstain for a given time from all solid foods. Live for at least one week on milk, one-quarter barley water, or koumyss. Then, as the stomach grows stronger, take pure milk, sipping it and swallowing it slowly. You may take also the raw white of an egg shaken with a cup of milk, Barthelemy's food, plum porridge, a little scraped beef broiled, and finally broiled beef, boiled rice and pulled bread. A glass of cool, not iced, water should be taken the first thing in the morning. A cup of warm, not hot, water half an hour before breakfast. For breakfast, three ounces of milk mixed with one ounce of barley water. This schedule should be followed every three hours throughout the entire day for one week, taking the last glass of milk half an hour before bedtime. Koumyss may be substituted for the milk or used alternately."

## AIDED BY MRS. PINKHAM.

Mrs. W. E. PAXTON, Youngtown, North Dakota, writes about her struggle to regain health after the birth of her little girl:

"DEAR Mrs. PINKHAM:—It is with pleasure that I add my testimony to your list, hoping that it may induce others to avail themselves of your valuable medicine.  
"After the birth of my little girl, three years ago, my health was very poor. I had leucorrhoea badly, and a terrible bearing-down pain which gradually grew worse, until I could do no work. Also had headache nearly all the time, and dizzy feelings. Menstruations were very profuse, appearing every two weeks.  
"I took medicine from a good doctor, but it seemed to do no good. I was becoming alarmed over my condition, when I read your advertisement in a paper. I sent at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and after taking two-thirds of the bottle I felt so much better that I sent for two more. After using three bottles I felt as strong and well as any one."

"I think it is the best medicine for female weakness ever advertised, and recommend it to every lady I meet suffering from this trouble."  
"Maternity is a wonderful experience and many women approach it wholly unprepared. Childbirth under right conditions need not terrify women.  
"The advice of Mrs. Pinkham is freely offered to all expectant mothers, and her advice is beyond question the most valuable to be obtained. If Mrs. Paxton had written to Mrs. Pinkham before confinement she would have been saved much suffering. Mrs. Pinkham's address is Lynn, Mass."

OUR BOYS RESEMBLE  
LIVING SKELETONSFEVER RAISES HAVOC DOWN  
AT JACKSONVILLE

Mrs. Chas. Hanson Writes Describing The Effects of the Disease—The Boys Don't Like to Admit That They Are Ill—Fifty Sick at One Time.

Mrs. Charles Hanson, wife of Captain Hanson, of Co. A, First Regiment Wisconsin Volunteers, writes an interesting letter under date of Sunday, August 7, and which arrived in this city yesterday. Sickness caused by fever has raised havoc among the brave soldier boys who form the local company. In describing the effects of the fever, Mrs. Hanson says that some of the boys resemble living skeletons more than anything else. They go about the camp grounds making but little complaint, but to one who is there it is plain enough that their place should be in the hospital. The boys, after being taken down with the fever, go without medical assistance just as long as they possibly can. They do not believe in making any more trouble for the nurses and physicians than is necessary.

## Fifty Men Missing

Last Sunday when roll was called there were fifty men missing from Co. A. The report showed that twenty-five of these men were in the hospital, while the other twenty-five were about the camp unable to appear on account of being down with fever. The disease leaves the victim in a weak state, their eyes being sunk back into their heads, presenting a most terrible appearance.

Mrs. Hanson, who has been confined to her bed of late, is now able to be about, and she is rendering some valuable assistance to the sick. The good work that is now being carried on in this city by the Soldiers' Aid society is much appreciated by the boys, for the reason that it comes in a needy time. The society held one of its monthly meetings this afternoon. The public should lend to it a hearty support.

## Coming Home

A letter received in the city this morning stated that two of the Janesville boys who had been dangerously ill were able to be removed from the hospital at Jacksonville, and that they were now on their way to Janesville.

## BURIAL OF JOHN ZULL

A Tribute to the Memory of an Old and Esteemed Citizen

The funeral of John Zull, who died at his residence on Milton avenue last Saturday, took place on Monday afternoon. A large number of friends and acquaintances gathered to show their esteem for their friend and fellow countryman, a large portion of whom followed the remains to Johnston, the place of interment. Mr. Zull was born in Stirlingshire, Scotland, Oct. 8, 1817. With the family he removed to this country in 1845, and located in Johnston, where he lived more than fifty years. Two years ago he removed to Janesville. Mr. Zull was one of five children, William, Mary and Mrs. Galbraith, of Iowa, having preceded him, and Mrs. Jane McElroy, of Milwaukee street, who still survives him.

On Feb. 22, 1856, he was united in marriage with Miss Elizabeth Purves, who still survives him. This union was blessed by the birth of three children: William and John, of Johnston, and David, who resides in White-water.

Mr. Zull was a man highly esteemed and loved by all who knew him. He was a prosperous man in his vocation, and occupied many prominent positions of responsibility and influence in the community where he lived. For many months he had been the victim of intense sufferings, all of which was borne with a calmness and cheerfulness characteristic of the man. Yet he was ready to obey the summons of the Master, to go up higher. Of did he express the thought that his whole dependence was in Jesus, his Savior, and expressed a desire to depart and be with Him. He went out, leaning on the Lord who was his shepherd.

## PLANNING ODD FELLOWS WORK

Important Conference of Officials To Be Held in Milwaukee.

James A. Fathers and Fred Hutchinson, of Back River Lodge No. 3, I. O. O. F., expect to be in Milwaukee on Saturday, August 27, to attend a meeting of the grand officers of the Grand Encampment of the state of Wisconsin.

The meet will be held in the evening, and will be for the purpose of planning district work for the ensuing year through the state of Wisconsin. Prominent officers from every portion of the Badger State will be in attendance, and the meeting promises to be one of special interest.

## THE PAVING COMMENCED

North Jackson and South Main Streets Will Soon Be in Good Order

J. Cape & Son, of Racine, who have the contract for macadamizing North Jackson and South Main streets, now have the work well under way on the first named thoroughfare. Several teams and men have broken ground near Wall street, and in some places the men have gone to a depth of eighteen inches. The greater portion of the men and teams employed in the work are from this city. The Racine firm is composed of men well posted in the business, and the work will be rushed to completion.

It takes three hours for Chicago evening papers to get to Janesville. It takes less than one second for the telegraph to cover that distance. The Janesville Gazette receives full press association dispatches, and the news is three hours later than that of Chicago and Milwaukee evening papers sold in this part of the state.

ALL RIPON REGRETS  
HIS DEPARTUREREV. W. A. GOEBEL ARRIVES  
HERE THIS NOON.

Business Men of Ripon Pay Him a Flattering Compliment—For Fifteen Years He Presided Over St. Patrick's Church Doing Good at All Times.

Rev. Father William A. Goebel, the newly appointed priest to preside over St. Mary's church in this city, arrived this noon from Ripon.

Rev. L. Vaughn, a recent graduate from St. John's University, Minnesota, accompanied Father Goebel, and for a few days will be his guest. Next Sunday services will be held in St. Mary's church and Father Goebel then expects to preach his first sermon in this city.

## Popular in Ripon.

For fifteen years he has faithfully presided over St. Patrick's church in Ripon, and it is not saying too much to state that a more popular man never resided in Ripon. He was loved and esteemed, not only by the members and friends of his church, but by the citizens of Ripon in general. When it became known that he was soon to leave for Janesville there was a sorrow expressed on all sides, and his departure was mourned as was Father Roche's here. The business men of Ripon, irrespective of creed, got together and planned a roasting farewell for one whom they had respected for fifteen years.

## Resolutions of Respect.

Headed by the mayor, the citizens of the town got together and drew up the following resolutions, which were presented to their friend in the form of a type written copy:

Ripon, Wis., Aug. 9, 1898.—"Rev. Father Goebel—Respected Sir and Friend:—We regret exceedingly to learn that you are about to sever your relation with this community, but as it seems to be so ordered, we are happy in the thought that we can always look back to the time you have spent here with pleasure. You have, while here, always evinced a desire to aid our citizens in all reasonable undertakings, and you have always been found working for the best interests of the city. We wish to make this expression of our esteem and respect for you as an honorable, enterprising citizen, and we most heartily wish you many happy years in your new field of usefulness."

The above resolutions are signed by Mayor Bruno Schallern and W. E. Lyle and F. D. Stone both leading business men. The resolutions were drawn up by the leading business men of Ripon and not one was a Catholic. For this reason Father Goebel feels proud of them for they plainly show that he was a public favorite.

## Father Goebel's Career

Born at Marietta, Ohio, in 1857, he entered St. Francis Seminary, Milwaukee, being ordained in 1881. Two years later he was assigned to Ripon.

Father Goebel is a pleasant man to meet, and it goes without saying that he will be extended a cordial welcome by the citizens of Janesville.

The message came to the party without warning, and was a great shock to them all. They left Monroe yesterday, and were traveling west when notified.

The party consisted of Mr. and Mrs. T. W. Goldin, Mr. and Mrs. W. B. Conrad, the Misses Mary and Margaret Barker, Herbert Goldin, Stanley Smith, Henry Scott and George Barker.

The violinist came forward. By request he played again the 'Soldier's Dream.' The soft and exquisite touch of the master characterizes Prof. Spencer's work and the assembly is delighted that he is to remain with them to the end."

## MACKIN WILL SOON RECOVER

Man Who Was Stabbed By Porter on Sunday Night Is Fast Mending

James Mackin, who was stabbed by Edgar Porter last Sunday night, is fast improving, and it will not be many days before he will be able to be about the house. Porter is spending a quiet time at the jail, and was much pleased when told that Mackin's injuries were not considered serious.

## Take Your Eyes.

Prof. Harry Thurston Peck, in The Bookman, in describing what the stranger may see in Liverpool—If he has the quick eyes of Prof. Peck—notes a curious instance of church rivalry. Something of the sort may be observed in other parts of the world, though usually less frank in methods.

"The stranger," writes Prof. Peck, "will be pleased to observe near the Prince's Park two small dissenting chapels that are evidently rivals in the work of saving souls, for each has a large tin sign inviting spiritual custom: 'Both salute the wayfarer with 'Welcome All!' but one describes its exercises alliteratively as 'Brief, Bright and Brotherly,' while the other, with perhaps a profounder psychological insight into human nature, says nothing about, the brightness or the brotherliness, but gets down to a definite basis on the question of brevity in announcing (as though it were a surgical operation) that it is 'All Over in One Hour,' adding also, still more reassuring, 'Sermon Positively Only Fifteen Minutes.'"

## Fame, Fate and Fortune.

Baltimore American: The sale of a copy of the first edition of the works of Robert Burns, in Edinburgh recently, for over \$2,800, was an event which calls up many interesting thoughts. During his life Burns was never a great financial success. He started for America, hoping to escape his debts, but the success of the first edition of his books changed his plans. He stood it out in his own country, and did his share in the consumption of hot and cold scotches. In that land he received a place paying him the municipal salary of \$200 a year, and this was afterward increased to \$325, which was so extravagant that it never went any higher. It all showed what beautiful Scotland thought of its greatest poet. And now one of the little books brings about as much as Burns made in his whole lifetime. Great poets ought to have two lives. A hundred years after they die amid poverty they ought to be allowed to come back and enjoy the profits of their matured fame.

REV. SABIN HALSEY  
CLEARED OF CHARGEJURY OF BRETHREN PRO-  
NOUNCE HIM NOT GUILTY

Testimony of the Racine Officers Regarded As Inconclusive—Previous Good Character of the Accused Taken Into Consideration—The Verdict Ends the Case.

By the verdict of a jury of his peers in the ministry Rev. Sabin Halsey, former pastor of Court Street M. E. church of this city, stands acquitted of the charge of drunkenness, preferred against him by the police of the city of Racine some months ago. The verdict was reached at a late hour last night after a hearing of all the testimony in the case and the arguments of counsel on both sides.

The facts recited by the Racine officer who made Mr. Halsey's arrest proved simply that Mr. Halsey's horse was going at pleasure while the clergyman was in a semi-unconscious state in the buggy and was somewhat incoherent after his incarceration in the jail. Other witnesses, however, testified that while the clergyman was somewhat confused there were no traces of liquor about him. Mr. Halsey's previous good character was taken into consideration, and his own emphatic denial of intoxication received much credence. The trial jury debated the issue long and earnestly, and at a late hour last night returned a finding of not guilty.

This verdict settles the case for all time. It does away with the necessity of any action by the conference, and restores Mr. Halsey to his standing in the church and ministry. This standing had never been affected except nominally.

Mr. Halsey is much gratified at the result of the investigation. He is now in better health than for some years past, and expresses himself as confident that he will be able to endure the strain of a pastorate at an early day. He is, however, willing to wait until the meeting of the conference for an assignment.

## LATE NEWS BY TELEGRAPH.

## THE PRESIDENT ANGERED.

Practical Ultimatum Has Been Sent to Spain.

## CAMBON HAS POWER TO ACT.

French Ambassador Said to Be Now the Actual Representative of the Spanish Government—Belief That Sagasta Will Sign the Protocol.

Washington, Aug. 12.—It was stated in official circles at a late hour last night that when M. Cambon agreed to the terms of the protocol as drafted by Secretary Day he acted for the first time in the capacity of a Spanish plenipotentiary, and that his acquiescence is tantamount to ignoring all the minor considerations brought forth by Spain and an acceptance of the terms that the United States insists upon.

The protocol, in its present state, may be looked upon as the rough draft of the one to be formally signed when M. Cambon receives the authorization of the Spanish government. It possesses all the force of an ultimatum, with the additional quality that M. Cambon, as Spain's representative, has agreed to it and signed it with Secretary Day.

If Spain repudiates his action she will not only have to bear the brunt of further war with the United States, but she will have a falling out with France that might be a serious matter in itself. But it is confidently asserted that there is no doubt that Premier Sagasta will approve every step Cambon has taken.

Assurance of this is believed to have been given Cambon, though he did not verify it when questioned as to the reliability of the report.

Washington, Aug. 11.—In an interview Wednesday the president said that Spain's reply was not entirely satisfactory, but that M. Cambon, the French ambassador, had been given to understand that the original terms offered by the United States would be adhered to.

Nothing could be more conclusive than the president's word, so that little opportunity is left to insist that Spain completely accepted the conditions imposed. It is true that M. Cambon was informed of the particular differences existing between the American and Spanish minds, and that he spent the greater portion of Tuesday night cabling to Madrid for authority to modify the reply. That he succeeded there is no room for doubt, because immediately after his visit to the state department at noon there was a noticeable change in the aspect of things.

Subsequently Secretary Day announced that the terms to be embodied in a protocol had been agreed upon, and that as soon as the document had been executed the negotiations of a treaty of peace would be begun.

The protocol provides for the evacuation of Cuba and Porto Rico, and in other respects conforms to the preliminary peace conditions imposed by this government.

But there is a peculiarity about the instrument. It partakes of all the elements of an ultimatum and by the means of it Spain is notified that not a single subject foreign to the propositions made by the president will be allowed to enter the deliberations of the peace commissioners.

It develops that when the reply was received Tuesday there was occasion for gloom, but it was learned that M. Cambon had been empowered to intimate to the United States government that if strong opposition was manifested he was to hint that Spain would not insist upon a strict compliance with everything included. It was then that the president put himself on record, and by his steadfastness superinduced relaxation on the part of Premier Sagasta.

The fact is, then, that Spain attempted to inject into a virtual acceptance of the basic principles laid down as preliminary to the negotiation of a treaty of peace a lot of superfluous matter that made the response objectionable. Taken by itself the reply would have been rejected and all conditions would have been withdrawn, but at the suggestion of M. Cambon the protocol was drafted without regard to the contents of the Spanish reply.

Now everything depends upon Spain's answer. The protocol will show just what the United States will do and what it will not do.

Three members of the cabinet interviewed last night join in the belief that the protocol will be agreed to by Spain, that some time today M. Cambon will be instructed to sign it, and that peace will eventuate.

They base their opinions upon the impression gained from M. Cambon's manner. But they say Spain hoped the United States would allow her to talk about a variety of things, and that she could in that way drag out the negotiations. In this, however, she was fooled. Instead of stopping to debate the matters introduced, the United States retorted with the protocol. There is not one chance in a hundred that Spain will decline to bow to the inevitable. On this point all views are optimistic in the extreme.

There is no particular hurry about arranging for the withdrawal of the Spanish troops from Cuba and Porto Rico. The government would be just as well satisfied if the enemy's forces

remained in Cuba until the end of the rainy season to perform police duty, as it has been determined not to have United States troops occupy the island until the unhealthy period has passed. The lesson of Santiago is still fresh in the minds of the president and the military authorities and they do not care to take unnecessary chances.

As for Porto Rico, enough American troops are there to hold the island, and these will not be withdrawn. There has been little sickness among them, and with good shelter, plenty of food, and no campaigning, it is believed that they will not suffer.

From all accounts the administration has not fully determined the character of the instructions to be given the American peace commission with regard to the Philippine question. It is significant, however, of the intentions of the president, prominent officials say, that every man who will represent the United States, with the exception of Secretary Day, must be a firm believer in the retention of these islands by this country.

## WHAT THE WAR COST.

Nearly One Thousand Million Dollars Will Be Spent.

Washington, Aug. 11.—Spain's practical acceptance of our peace terms and the evidence on every hand in administration circles that the war is about at an end has aroused the mathematicalians. They are now engaged in demonstrating what the cost of the whole war will have been to the government when the last volunteer soldier is at home, the last penny of war bond interest paid, the last pension awarded. This calculation is of course far-reaching. Fairly accurate estimates of the extraordinary expenses of the army and navy during March, April, May, June, July and August gave them as \$150,000,000, of which about \$105,000,000 was expended between April 25 and Aug. 6, and \$123,000,000 between April 1 and Aug. 6. The latest calculation, based upon treasury reports and comparisons with similar expenses during the civil war, calculates the war expenses from April 1, 1898, to April 1, 1899, at which time it is assumed all extraordinary expenses will have ended, and adds thereto interest and pension charges growing out of the war and an arbitrary estimate of the value of the labor lost by volunteers entering the army. According to this calculation the war will have cost the United States \$1,000,000,000.

The table of estimates of war expenses: Current war expenses, April 1, 1898, to April 1, 1899, \$400,000,000; war expenditures of the separate states, \$15,000,000; citizen contribution to soldiers' aid, \$15,000,000; war damage claims against the government, \$20,000,000; loss of labor of 250,000 volunteer soldiers one year, \$100,000,000; interest on war debt, \$90,000,000; probable new pensions to be paid, \$300,000,000; value of the army, \$3,000,000,000. Total, \$943,000,000.

This estimate is so close to \$1,000,000,000 that the round total may in the end represent the expense of Spain's mistakes for us. Senator Hale of Maine predicted last spring that the expense of the army and navy operations for one year would be between \$700,000,000 and \$800,000,000.

Lawton to Control Santiago.

Washington, Aug. 11.—A department of the army to be known as the department of Santiago was created last night. Maj. Gen. Henry W. Lawton is assigned to its command. Brig. Gen. Wood will continue in command of Santiago city. Gen. Shafter returns to this country with the Fifth Army Corps. He will be in command until he departs.

Fifth Illinois Disheartened.

Newport News, Va., Aug. 11.—The Fifth Illinois Infantry is disappointed again and will not see Porto Rico at present. The regiment was on board the Obdam Wednesday morning, ready to sail. Then a messenger came from the war department for the men to disembark and return to their camp to await further orders. Col. Culver said that he now entertained no hope of active service.

Spaniards Leave Santiago.

Washington, Aug. 11.—This telegram was received at the war department last night: "Santiago, Aug. 10.—General H. C. Corbin, Adjutant-General U. S. A., Washington: Hospital ship Alicante, with 1,050 Spanish sick on board, has just left the harbor. Luzon came in this morning and will be loaded tomorrow."

"SHAFTER, Major-General."

Garcia Occupies a Town.

Santiago de Cuba, Aug. 11.—Col. Jane, a Cuban, has just arrived by land from the front with dispatches. He reports that Gen. Garcia occupies Gibrara, which was evacuated by the Spaniards, who left 1,000 sick and wounded behind them. The Cubans are taking care of these.

To Go on the Tide.

### NEBRASKA MEN NAMED.

Delegates at Lincoln Make Nominations for State Offices.

Lincoln, Neb., Aug. 11.—The following nominations for Nebraska state officers were made Wednesday at the Republican convention held here: Governor, M. L. Hayward; lieutenant-governor, George A. Murphy; secretary of state, C. Durassi; auditor, T. L. Matthews; attorney-general, W. H. Jackson; treasurer, Peter Mortenson; commissioner of public lands and buildings, G. B. Williams; commissioner of public instruction, T. H. Taylor.

The resolutions congratulate the people of Nebraska upon the successful issue of the war inaugurated under the personal direction of President McKinley, express satisfaction with the administration's policy in disposing of the conquered territory, whatever it may be, declare the continued hostility of the party to free silver, demand that the soldiers and sailors of the nation be paid in the same money as the bond-holding class and conclude with a pledge, if the party is returned to power in Nebraska, to administer the affairs of the state with economy and honesty.

### BISMARCK TO BE REBUILT.

Work of Erecting New Structures Already Being Rapidly Pushed.

Bismarck, N. D., Aug. 11.—Insurance adjusters have begun to arrive, and the debris from the fire is being removed preparatory to the erection of new buildings. The First National bank will erect a brick block to replace its ruined building. The bank vault was opened this morning and the contents found in excellent condition.

The merchants burned out have rented vacant store-rooms, and all the carpenters in the city are at work repairing. Indications are that the greater part of the burned district will be rebuilt with brick. There is a general spirit of determination to rise from the calamity with a handsomer city than before.

There are now 329 patients in the military hospitals here. Private Harry Reed of Company E, First New York volunteers, has died of pneumonia—the first death in that regiment. The remains will be taken to Utica.
